## Technical Skills

---

- **Cloud Platforms:** SharePoint, OneDrive
- **Scripting Languages:** Javascript, JQuery, Java
- **Developer Tools:** VS Code, PyCharm, Eclipse
- **Database Management:** SQL, MySQL, SQL Server
- **Microsoft Power Platform:** Power Apps, Power Automate

## Experience

---

### LTIMindtree, Hyderabad, India

(May 2022 – August 2023)

#### Senior Software Engineer – SharePoint Production Support

- Administered and managed SharePoint Online, ensuring seamless document management and collaboration.
- Provided Microsoft O365 support, specializing in SharePoint and OneDrive cloud troubleshooting.
- Part of the SharePoint Online/OneDrive break-fix team, resolving critical issues and optimizing performance.
- Handled client queries, errors, and enhancement requests through on-call support, ensuring minimal downtime.

### TATA CONSULTANCY SERVICES

(June 2018 – May 2022)

#### SharePoint Workflow Developer (Apr 2019 – May 2022)

- Designed and implemented custom workflows using SharePoint Designer to automate business processes.
- Created Microsoft Forms to facilitate structured data collection and improve workflow efficiency.
- Developed and deployed Power Automate flows for email notifications and approval processes.

#### Web Support Engineer (Jan 2019 – Mar 2019)

- Provided technical support for web-based projects, ensuring smooth functionality and resolving issues.
- Assisted in the development and enhancement of web pages, improving UI/UX and overall performance.
- Conducted testing and debugging to ensure the reliability and stability of web applications.

#### Web Developer (Sep 2018 – Dec 2018)

- Developed interactive and responsive web pages using SharePoint Designer 2013, JavaScript, jQuery, HTML, and CSS.
- Performed manual testing to validate functionality, responsiveness, and cross-browser compatibility.

### Java Training (Jun 2018 – Sep 2018)

- I received Java programming training, covering core concepts like object-oriented programming (OOP), data structures, and algorithms.
- Gained hands-on experience with Java syntax, classes, inheritance, polymorphism, and exception handling.
- Worked on practical coding exercises and mini projects to strengthen programming skills and problem-solving abilities.
- Developed a solid foundation in Java, preparing for advanced programming challenges and software development tasks.

## Curricular Activities

---

- Participated in the Project Expo conducted by ISRO, where I presented an innovative drone project related to space science, gaining exposure to advancements in satellite communication and unmanned aerial vehicle (UAV) technologies.
- I took part in the National Workshop on Green Nanomaterials organized by the Srimaharshi Research Institute of Vedic Technology, focusing on sustainable and eco-friendly nanomaterials for environmental applications.
- Contributed as a member of the National Service Scheme (NSS) at R.V.R&J.C College of Engineering, engaging in community service activities like clean-up drives, blood donation camps, and awareness campaigns.
- Participated in the Mega Camp Program at Acharya Nagarjuna University, assisting with health, education, and rural development initiatives for local communities.

## Education

---

- **Cleveland State University**, Cleveland, OH August 2023 – Present  
Master of Computer Science
- **RVRJC College of Engineering**, Guntur, India June 2014 - May 2018  
Bachelor of Technology (Mechanical)
